PRODUCT OVERVIEW

This Predator 212cc gasoline engine has gas-saving overhead valves for cooler, cleaner performance and longer life. The horizontal shaft is ball-bearing mounted, making this gas engine an ideal replacement for most standard engine configurations. The powerful gas engine features a durable cast iron cylinder making it the perfect replacement engine for a lawn mower, log-splitter and dozens of other machines.

Upgraded engineering and construction for improved lifespan

Durable cast iron cylinder withstands wear and abuse

User-friendly controls for easy starting and operation

Low oil sensor shuts down engine when oil reaches a level that is too low for safe operation

Fuel shut off for safe transport

Replacement Engine

For the money this is a great engine. Started right up and runs strong. I will buy another in the future.

Great value

Used to replace a Predator 6.5 that had been on a portable water pump for about 10 years, in the elements most of the time. The engine was still running just harder to start. 10 years of use for \$100.00 is a good value in my book. With a new carb and some maintenance the old engine may still have a lot of use. It was quicker and easier to replace than repair. I have these engines on wood splitter, air compressor and water pumps and all work great. I will buy again when needed, and would recommend to anyone.
